ROLL ON / ROLL OFF TANK

HIGHLIGHTS

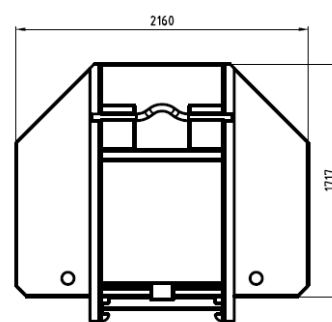

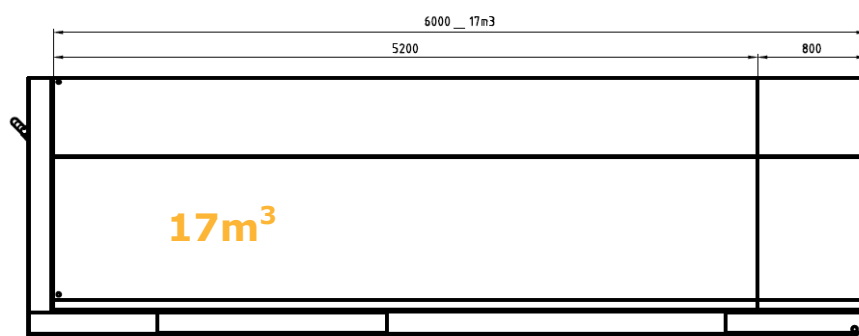

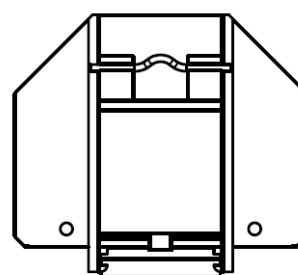

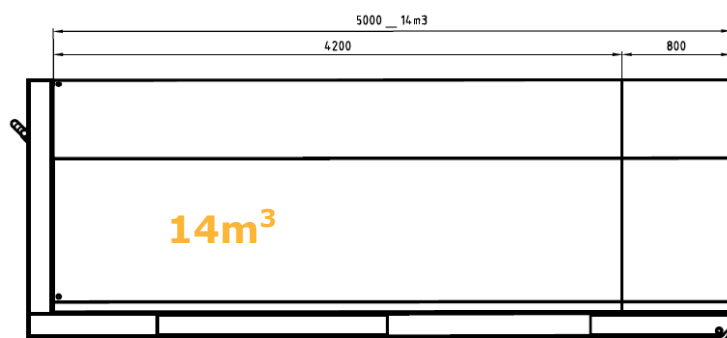

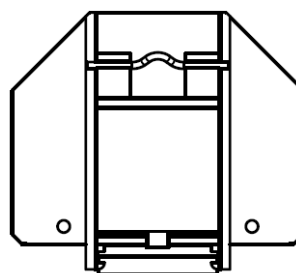

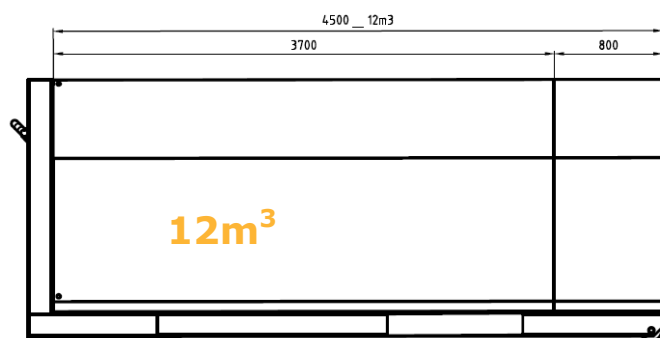

- Designed for 3 or 4 axle trucks
- Standard hook lift / container roll on / roll off
- Cheap base vehicle hire — low capital investment

- Up to 6m suction height
- Up to 23 m³ water in under 10 mins
- Standalone pump — wireless control — no need for cabling
- Low centre of gravity and custom baffles for driving stability

- 0-15m spray widths infinitely variable whilst driving
- Water output in forward and reverse travel
- Output to the side / front / spraybar for follow-up treatment
